

BABYBJORN(R) Baby Carrier Active

Contributed by Administrator

How comfortable is this BABYBJORN carrier? Well, it's the one our head buyer chose for herself and she's pretty much tested them all. It's simply more comfortable for longer periods: the ergonomic straps lift the weight off your shoulders, while the lumbar support protects your back. Easier to remove, too all the buckles are in front. You can even nurse in it! With safety straps for infants 8-11 lbs., and an adjustable head support. Baby can ride forward or inward. For infants 8-26 lbs. and 21"-29"L. Great idea: soft terry Bibs keep your carrier looking new and a warm, weather-resistant Cover made of soft, breathable fleece! Both machine washable. Imported. Award-winner: winner of the JPMA Innovation Award Cushioned, contoured shoulder straps evenly distribute baby's weight, reducing shoulder strain Sliding lumbar support adjusts to fit your torso, providing custom comfort Padded adjustable head support cradles your inward-facing newborn's head; later, fold it down for your forward-facing baby Easiest to unbuckle or adjust, thanks to BABYBJORN's patented front on/off system You can even remove baby without waking him (the front piece detaches completely) 10 1/4 "L X 3 1/4 "W X 13 3/4 "H Machine wash separately in warm water, mild detergent, gentle cycle and drip dry. Do not use chlorine bleach or fabric softener
