

ERGO Baby Organic Carrier - Green

Contributed by Administrator

Why Buy Organic? Organic cotton is produced without the use of harsh chemicals. Instead natural fertilizers, compost and the use of natural pest control have helped make the growing of organic cotton a viable enterprise. The benefit of producing cotton organically, to the consumer, especially our babies, is the softness and quality that only organic cotton can provide. This is one of the top reasons people choose organic cotton for their delicate baby's skin. The ERGO Baby Carrier's ergonomic design supports a correct sitting position for the baby's hip, pelvis and spine growth. It disperses most of the baby's weight between the hips and thighs. The ERGO also balances the baby's weight to parents' hips and shoulders, and alleviates physical stress for the parent. In infancy, The ERGO with the Infant Insert (sold separately), supports your newborn like a baby sling while having both hands free to work. It can be worn on the front, back or hip position.
